

Actuator 165MBK

When used with the corresponding safety sensor, the magnetic actuator of the new eloProtect M range enables optimised operating distances and offset values as well as increased tampering protection.

Technical specifications

- Flexibility in installation and use from variable actuation direction
- Space saving and simple installation through small size
- Screw covers prevent easy removal and the accumulation of dirt
- Strong resistance against cleaning agents (ECOLAB) makes this suitable for use in the food and packaging industries.
