

## SEKO magnet 324102 Ø8x17mm

### Product characteristics

- For use with magnetic sensors
- Simple installation thanks to M6 thread
- Large temperature range

Technical drawing

#### Article characteristics

| Attribute                  | 324102                 |
|----------------------------|------------------------|
| Dimensions                 | SW10 / H=5             |
| Material                   | Galvanised steel, SmCo |
| Operating temperature min. | -20 °C                 |
| Max. operating temperature | 80 °C                  |
| Mounting type              | Thread                 |
| Thread                     | M6x12                  |
